

Brusher "BRUSH COMPACT" small efficient cleaning machine

Reference: RF0071

The BRUSH COMPACT is a small and efficient cleaning machine easily applicable to any machine when one or more traditional brushes don't clean effectively the fabric.

The brusher is working near the exhaust hood blade, keeping always the same distant and efficiency; after two suction blades are placed before the exit of the fabric.

The two sets of brushes, and the two sets of suction blades act at the same time on the front and the back of the fabric.
